Eddy is very passionate about music and technology. He started his first technology business at 18 years old with Galaxy Security System (Computerized security and space detection) as a member of the NBFAA..... At the same time he founded ESP Record with his first production signed and distributed buy PolyGram/Panic Record in France. Then, he joined with others renowned producers and together they founded Mambo Recording Studios on Mid-Town Manhattan, working for Sony, BMG, EMI and other major record labels. In that studio he worked with major projects and celebrities such as Alicia Keys, Mark Anthony, Celia Cruz, Elvis Crespo, Coke Commercials and many others...

Eddy also owned a business in the wireless telecommunications industry, but his business suffered due to the economy. This was a wakeup call for Eddy. He was presented the UnFranchise Business Opportunity by Jonson Li and John Liu. Immediately He saw Market America's vision. Right after he joined the business, he went to World Conference in Miami and purchased six tickets for the next International Convention with a Webcenter as special offer. When He returned to NY sold all the Convention tickets, formed The NYXTeam (New York Extreme Team) and generated thousands and thousands of dollars by selling many web solutions to businesses. Ever since Eddy's team continues growing in many different markets likes NY, NJ, Miami, Massachusetts, Canada and others. He has been building a successful IT team in technology area and Cosmetic Team in high end beauty spa. His great knowledge and leadership have continuously helped many people in achieving their financial goals.

Please join us at the Hispanic Breakout, learn from Eddy Sarit the best ways to meet your financial goals. He will show how you can meet Market America University Major Challenges.
